

This letter is an application of interest to continue to be a parent representative on School Council at Reservoir High. I would appreciate your consideration.

As a council member, I will come prepared and ready to contribute at council meetings. I will attend school events and seek to understand the school's operations. I intend to support the school council president and the principal. I will actively promote the school to the community. I will comply with the code of conduct for school councillors and behavioural expectations set out in the Department's values.

I acknowledge and respect the work that goes into moving a school forward and would be honoured to be part of the process at Reservoir High. It has been an honour serving on this council for the past six years.

Yours sincerely,
Maria Mandilas
