

My name is Nick Mandilas. I am 45 years old with one son recently graduating from RHS and another currently studying in year 11.

I am very passionate about Reservoir High. My focus is always on trying to understand the school's direction and how shapes student future outcomes. I am confident and decisive, but understand my boundaries as a school council member. I am patient, ethical and reliable.

I have been on school council now for approximately 5 1/2 years, with 5 of those years as school council president. During that time I feel I have contributed positively to RHS, and believe I have built a strong working relationship with both the principal and the assistant principal. I recognise the vast experience of RHS staff members that reside on council. I always strive to listen to their well-experienced viewpoints and advice before making a decision.

In closing, I hope that I am suitable to secure a school council position for another term.
