Principal's Message

2025: A Year of Achievement and Growth

2025 was a highly successful and rewarding year for Reservoir High School, reflecting our commitment to ensuring every student explores their passions, achieves success and flourishes.

Academic results remained strong, with outstanding NAPLAN performance and excellent VCE outcomes, including high ATAR achievements and multiple Study Scores above 40. Our Year 12 cohort demonstrated resilience and ambition, with many students confidently pursuing a range of post-school pathways.

This year also saw the opening of our new Science and Technology Centre, alongside the introduction of key initiatives such as our Lesson Model and the launch of Visible Wellbeing, strengthening both learning and student wellbeing across the school.

Students excelled across a wide range of areas including sport, the arts, leadership and academic competitions. Highlights included major performances, debating success, state and national sporting achievements and strong partnerships with La Trobe University. The restructured Student Leadership Team and SRC played a vital role in building school spirit and student voice.

Reservoir High School continued to thrive as a connected and supportive community, with students, staff and families working together to create a positive and inclusive environment.

We celebrated a year of growth, achievement and opportunity, and look forward with excitement to what lies ahead in 2026.

Katie Watmough

Year 7 Camp

The Year 7 Camp at Camp Toolangi was once again a highlight of the early school year, running from Wednesday, February 12th to Friday, February 14th. Nestled just outside of Kinglake, the camp provided an ideal setting for students to build new friendships, develop confidence and settle into secondary school life. With 74 enthusiastic students attending, the atmosphere throughout the three days was energetic, supportive and full of excitement.

The camp served as an excellent transition experience, giving students an opportunity to connect with their peers and teachers outside the classroom. Many arrived feeling a mix of anticipation and nerves, but quickly embraced the challenges and adventures that lay ahead.

Throughout the camp, students participated in a wide range of engaging and often demanding outdoor activities. The high ropes course encouraged bravery and trust, as students supported one another to reach new heights—literally. The low ropes and obstacle course challenged teamwork and communication, with groups working together to navigate ropes, beams and balance elements.

The flying fox and rock climbing wall provided thrilling moments, with cheers erupting as students pushed past their comfort zones and celebrated personal achievements. Archery allowed students to test their focus and accuracy, while orienteering taught them how to navigate through the bush, using maps and teamwork. One of the most memorable activities was bush hut building, where creativity, collaboration and a good sense of humour were essential ingredients.

Beyond the scheduled activities, the camp was filled with moments that reinforced the values of resilience, cooperation and inclusiveness. Mealtimes, free time and evening gatherings gave students the chance to unwind, share stories and strengthen the friendships that will support them throughout their years at Reservoir High School.

A very big thank you goes to the dedicated staff who supervised, encouraged and guided students throughout the camp. Their enthusiasm and commitment ensured a safe, enjoyable and rewarding experience for all involved.

The 2025 Year 7 Camp at Camp Toolangi was a wonderful success, setting a positive foundation for the year ahead. Students returned home tired but smiling, carrying with them memories of accomplishment, laughter and new connections that will last well beyond their first year of high school.

Year 7 Scholarship Awards.

Celebrating Our Year 7 Scholarship Recipients

The Library was filled with pride and celebration as we recognised our Year 7 Scholarship recipients at a special awards function.

The event provided an opportunity to acknowledge the hard work, dedication and outstanding achievements of these students as they begin their secondary school journey. Each scholarship recipient was invited to attend with their parents and was also able to bring along a friend to share in this special occasion.

During the presentation ceremony, students were awarded a certificate and a small gift in recognition of their achievement. They were also formally acknowledged as recipients of scholarship funding to support their education throughout the school year.

It was wonderful to see families, friends and staff come together to celebrate the success of these deserving students. The recipients should be incredibly proud of their accomplishments and the positive example they set for others.

Following the ceremony, guests enjoyed a lovely morning tea in the Library, providing an opportunity for students, families and staff to connect and celebrate together in a relaxed and welcoming atmosphere.

Congratulations to all of our Year 7 Scholarship recipients. We look forward to watching you continue to grow, achieve and make the most of the opportunities ahead.

ANZAC Service & Bruce Kingsbury Service

On Thursday, 24th April, Reservoir High School was proudly represented at the annual ANZAC Service held at the Kokoda Memorial in Ferntree Gully National Park. This special event provided an opportunity to honour the bravery, sacrifice and service of Australian soldiers, particularly those who fought in Papua New Guinea during World War II.

The service was conducted by the 2/14th Battalion Association, whose members served with distinction in some of the most challenging conditions of the war. A central focus of the ceremony was the story of Bruce Kingsbury VC, whose extraordinary courage during the Kokoda Campaign earned him Australia's highest military honour. His selfless actions and ultimate sacrifice helped to protect his fellow soldiers and continue to inspire Australians today.

Representing Reservoir High School, School Captains Rosie and Indi proudly laid a wreath during the service, paying tribute to the men and women who have served our country.

A highlight of the ceremony was a moving presentation by Aiden Turker, the current recipient of the Bruce Kingsbury Scholarship. Aiden recited his award-winning poem, captivating the audience with its powerful imagery and heartfelt reflection. His performance was both memorable and inspiring, leaving a lasting impression on everyone in attendance.

The ANZAC Service was a meaningful occasion that reminded all present of the importance of remembering those who have served and sacrificed for Australia. Reservoir High School was honoured to be part of this significant community event.

Fair Go Sports

Celebrating diversity and inclusion

February 28th, Reservoir High School – The much-anticipated Fair Go Athletics Carnival was held last Friday, bringing together students, staff and supporters for a spectacular day of competition, camaraderie and school spirit. With vibrant grandstands and a sea of colors representing the various houses, the atmosphere was electric, as athletes took to the field to showcase their skills.

Students participated in a range of track and field events, demonstrating their dedication, perseverance and teamwork. Cheers echoed across the venue as participants pushed their limits in sprints, long-distance races, jumps and throws. The crowd's enthusiasm was palpable, with grandstands decorated in bold and creative displays of house pride.

After a day of intense competition, it was Plenty who emerged victorious, claiming first place with an outstanding performance across multiple events. Darebin followed closely in second place, while Merri secured a well-earned third place. The spirited efforts of all competitors made for an unforgettable event, showcasing the values of fair play and determination.

Teachers praised the students for their sportsmanship and participation. "It was fantastic to see so many students giving their best and supporting one another". "The energy and enthusiasm were incredible"

The Fair Go Athletics carnival once again proved to be a highlight on the school calendar, reinforcing the importance of teamwork, perseverance and school pride.

Book Week

Book An Adventure

This year's Book Week was pure page-turning magic! The library unveiled a brand-new backdrop – a fantasy library melting into a glowing forest, complete with a winding path that definitely led somewhere enchanted... though some swear it was just the way to the photocopier.

Students leapt headfirst into adventure with a whole-school Scavenger Hunt. Codes and clues were stashed in buildings, gardens, and even actual books (yes, students willingly opened them – librarians nearly fainted). It was equal parts mystery, marathon, and “why is there a cryptic note taped to the school gate?”

The Book-Themed Trivia turned up the heat next. The competition was more intense than a teacher spotting you eating in the library. Teams fought for prizes while fielding questions that ranged from “obvious to anyone with eyeballs” to “this feels like it was written by a trickster elf.”

Finally, we closed the chapter with the Costume Parade. The library transformed into a runway of wizards, warriors, fairy-tale legends, at least three Dorotheys, two Red Riding Hoods, and – in a shocking twist – not a single Harry Potter. Once again, we proved that even if we don't all read the same stories, everyone looks epic in a cape.

Book Week 2025 reminded us that reading isn't just magical – it's hilarious, adventurous, and occasionally rewarded with chocolate.

Careers

BIG DAY IN ACS FOUNDATION

A big thank you to those students who attended the Big Day In Expo at the Capitol Theatre. Students visited exhibitor stands to speak with company and university representatives, learn about courses, degrees, work experience, internships and to engage with hands-on demonstrations of awesome technology. We heard from a range of organisations including TIC Group, ADF, Tata consultancy (TCS), Westpac, Canstar and Adobe. They covered areas such as opportunities in defence, digital innovation, financial platforms, computational thinking, national security and cyber security-all with an emphasis on the career roles and possibilities for young people. A big thank you to the wonderful young RHS students who attended and to Ms Toula & Mr Devine (who also managed to win a couple of teddy bears for his nephews!) 😊

Careers

Big Trades Fit Expo

Opening New Pathways for Reservoir High School Students

In May Mr Devine and Toula accompanied a group of female Year 11–12 students to the Trades Fit Expo in the city—an inspiring careers event designed for female and gender-diverse students across Victoria.

The expo showcased hands-on activities, interactive displays and presentations, led by women working in highly skilled trade and technology industries. Students were able to explore a wide range of career possibilities in fields such as engineering, construction, agriculture, robotics, electrical and plumbing, gaming, pharmaceuticals and more.

The day encouraged students to expand their career ambitions and learn about the many pathways into these exciting and often traditionally male-dominated industries. Our students were fully engaged, and it was a fantastic experience for all involved.

Careers

Drone Taster Day

Our Year 9–11 students had the chance to experience Drone Taster Day – an exciting, hands-on introduction to the rapidly growing world of drone technology. Our host for this event was Bundoora Secondary College.

Delivered by National Drones, Australia's leading CASA-approved drone training organisation, the session gave students a taste of what it's like to fly real drones and explore future-focused pathways, including the Certificate III in Aviation (Remote Pilot).

Students learned directly from professional drone pilots, discovering how drones are used in areas such as farming, emergency services, filmmaking and environmental monitoring. They were also able to capture their own aerial photos and videos, while gaining insight into careers across aviation, STEM and emerging technologies.

It was a fun, fast-paced and fully interactive day that opened students' eyes to the exciting possibilities of drone technology and the high-demand careers it can lead to.

First Aid : Building Skills for Life: Year 12s Complete Level II First Aid

Our senior students took an important step in developing their life and employability skills this week by completing their Level II First Aid certification. The full-day program was hands-on, engaging and highly practical, giving students the confidence to respond in emergency situations, both in and beyond school.

From learning CPR techniques to managing wounds, fractures and medical emergencies, students were fully immersed in real-world scenarios guided by experienced trainers. The day was not only informative but also incredibly enjoyable, with many students noting how valuable and empowering the experience felt.

It was a great day had by all and an essential qualification that will support our students in future workplaces, community settings and everyday life.

Careers

Food Handlers Certificate : Serving Up Success: Food Handlers Certificate Course

Our Year 11 and 12 VCE and VCE VM students recently completed a fun, hands-on Food Handlers Certificate course, gaining essential skills in food safety and hygiene.

Students learned about safe storage, contamination prevention and hospitality requirements through practical activities and real-life examples. Many now hold a nationally recognised certificate that will support them in part-time work and future training.

It was an enjoyable and valuable day that helped build confident, work-ready young adults.

Careers

International Student University Expo

Our senior international students recently attended the International Student University Expo at the State Library Victoria – a valuable and enjoyable day exploring future study options.

Students spoke with university representatives, learned about courses and support services and gathered useful information to help plan their pathways beyond school. They also enjoyed collecting a few fun freebies along the way!

The day finished with a relaxing lunch in Chinatown, giving everyone a chance to reflect and enjoy the city atmosphere. It was a successful and memorable experience for all involved, including staff - Ms Tammy Baines and Mr Peter Devine.

Supporting Our Future Tradespeople

One of the highlights of the year was the fantastic support received for our Vocational Education and Training (VET) students as they prepare for their future careers. Through a partnership between Master Builders Victoria and the Victorian LLEN network, our VET students are being equipped with the tools they need to enter the workforce with confidence.

Thanks to the generous support of Inner Northern LLEN, funding was secured for nine pairs of safety boots for students pursuing pathways in Building and Construction, Electrical, Carpentry and related trades. This initiative helped remove a significant financial barrier, ensuring students could begin their training fully prepared and professionally equipped.

We are incredibly grateful to Master Builders Victoria and the LLEN network for their commitment to supporting our students. Their investment not only strengthens vocational education opportunities but also empowers our young people to take confident steps toward successful careers in the trades.

Careers

Army Careers Day at Puckapunyal

On Friday September 12, students from Years 10–12 visited the Puckapunyal Military Area for the Army Careers Day, hosted by the Defence Work Experience Team. Students met soldiers from various Corps, explored Army equipment such as radios, drones and vehicles, and even had the chance to ride in a Bushmaster PMV—a clear highlight. The day showcased the wide range of Army and Defence career pathways, reinforcing our commitment to supporting every student in exploring diverse futures.

A big thank you to Mr Chen, Mr Devine and Chris (Melbourne University pre-service teacher) for their support, and to our students who represented Reservoir High brilliantly.

Careers

Spark's First Nations Work Experience Program

Spark, the company helping deliver Australia's biggest infrastructure project – the North East Link – is not only transforming Melbourne's transport network but also creating thousands of jobs and learning opportunities in the construction industry.

As part of its commitment to diversity and inclusion, Spark's First Nations Work Experience Program offers Indigenous high school students a four-day paid placement introducing them to real-world construction environments. The program provides mentoring, hands-on experience and insights into the many career pathways within the industry.

Three of our students – Indiana Hocking, Jai Cox, and Mason Denman – recently took part in the program and represented our school brilliantly. They gained valuable skills, industry connections, and a clearer sense of the exciting opportunities available in construction.

Congratulations to Indiana, Jai, and Mason on their outstanding participation!
Mr Devine

Careers

VET Pathways Taking Off at Reservoir High School

Reservoir High School offers one of the widest VET programs in the region, with more than 40 courses available. Two standout options this year are **Cookery** and **Diploma of Aviation (Commercial Pilot Licence – Aeroplane)**, both giving students valuable industry experience.

In **Cookery**, students work in commercial kitchens, learning practical culinary skills and preparing restaurant-quality dishes under the guidance of industry trainers.

Aviation allows students to explore aerodynamics, flight operations and aviation safety, with the added excitement of flight simulator sessions and actual flying time—an inspiring start for future pilots and aviation professionals.

Leonard is now a qualified pilot through this course!!

These programs highlight how VET at Reservoir High School continues to open doors, build confidence and support students in pursuing meaningful pathways beyond school.

Careers

VCE Outdoor and Environmental Studies Students Explore the Western Treatment Plant

Our VCE students visited the Western Treatment Plant, a Ramsar-listed wetland of international significance. The field trip offered a unique opportunity to study biodiversity, water treatment processes and conservation in action. Students observed a wide range of birdlife, explored the wetlands' ecological importance and learned how the site balances wastewater treatment with habitat protection. The experience brought classroom theory to life and deepened students' understanding of environmental management in Victoria. It was an engaging and informative day, giving students valuable insight into one of the state's most important ecological sites.

Careers

Reservoir High School Students Lead the Way with Bridge Darebin's Youth Action Group

This year, nine of our Year 10 students proudly represented Reservoir High School in Bridge Darebin's Youth Action Group (YAG) – a dynamic, paid leadership and advocacy program for young people aged 12–18 who want to make their voices heard.

YAG empowers students who are passionate about issues such as social justice, climate action, inclusion and youth wellbeing. The program is youth-led, inclusive and designed to build real-world leadership skills, while giving young people the chance to create meaningful change in their community. Members also help shape major local events, including Darebin's annual Youth Summit.

Across 11 weeks, our students developed skills in teamwork, communication, event planning, advocacy and problem-solving. They collaborated with other young leaders from across the City of Darebin, contributing ideas and solutions leading up to the final Youth Summit held at The Hub, Northland.

We were incredibly proud of our students' initiative, dedication and passion – they truly demonstrated what it means to be active, engaged young citizens.

Careers

Reservoir High School Year 10 Work Experience: A Valuable Step Toward the Future

Year 10 students at Reservoir High School completed their Work Experience placements—and the results were inspiring. From offices and hospitals, to mechanics and retail stores, our students stepped out of the classroom and into the world of work, gaining firsthand insights into potential careers and developing key life skills.

Work Experience helps students build confidence, improve communication and understand the expectations of a professional environment. It's not just about deciding on a future job—it's about discovering strengths, interests and opportunities that shape long-term goals. For parents, it's a chance to see your child grow in independence and maturity. Supporting them through this journey not only strengthens their sense of responsibility but also encourages open conversations about their future pathways.

We thank all participating employers and families for making this program a success, and we look forward to seeing the impact this experience has on our students' next steps.

A Path Built with Passion: Marianne's VET Success Story

Marianne Magno is a wonderful example of where dedication and hands-on learning can lead. During three years studying Building and Construction through VET, she embraced every opportunity to develop her skills.

Her Structured Workplace Learning placement at Show Works in Thornbury, under the guidance of owner Tim, proved to be a pivotal experience. Marianne impressed the team with her enthusiasm and work ethic, leading to an apprenticeship offer after she completed Year 12.

We congratulate Marianne on this fantastic achievement and thank Tim and the Show Works team for supporting our students. Success stories like Marianne's highlight the strength and value of our VET programs.
Mr Devine

Yr 10 Business and Accounting Market Stall Day

After weeks of planning—and plenty of nerves—the big day finally arrived for our Business students to showcase and sell their products. With support from Ms Chislett and the Food Tech team, the space outside B Block was transformed into Market Stall Central.

The morning buzzed with food prep, last-minute setup decisions and spirited debates about roles, pricing and who would handle the cash. By recess, the first customers arrived, and lunchtime brought an even bigger rush.

From the viral favourite, Dubai Strawberry Chocolate, to carnival-style games (including the ever-popular “piff a water balloon at a teacher”), the event was a resounding success. While profit wasn’t the main goal, many groups still walked away with solid revenue—proof that simple ideas often work best. Others discovered the value of research, with one student remarking, “We should’ve paid attention to what’s going viral!”

Students from Years 7–10 and staff turned out in great numbers to support the stalls, and our Business students were grateful for the enthusiastic encouragement.

Ms Muir & Mr Devine

Market Day Stall

International Students

The International Student cohort continued to flourish this year, building a strong and supportive community within the school. Having their own dedicated space has provided students with a sense of belonging, comfort and connection, allowing friendships to grow and confidence to develop.

Throughout the year, students shared their cultures and traditions through a range of celebrations. Highlights included the Moon Festival and regular birthday cake celebrations, which brought students together and created joyful moments of connection and inclusion. Academic support remained a priority, with a weekly homework club dedicated to assisting international students with their learning. This program offered guidance, encouragement and a welcoming environment, where students felt supported in asking questions and developing their skills.

The International Student space has become more than just a place to study – it is a hub of friendship, celebration and support. The resilience, kindness and enthusiasm shown by this cohort have enriched our school community, and we are proud of all they have achieved throughout the year.

International Students

Lunchtime Clubs

This year, lunchtimes at Reservoir High School were more vibrant, energetic and action-packed than ever. Following the incredible turnout at the sixth annual Lunchtime Activities Expo back in February, students carried that excitement with them throughout the entire year—turning every break into an opportunity to create, compete, connect, or simply unwind.

With our two-week timetable keeping things fresh, no two weeks ever looked the same. But one thing was constant: there was always something happening.

Our creative performers shone brightly in the Production Club, guided by the ever-inspiring Ms Rossini—our very own Stella Adler, in spirit and energy. Alongside her, Ms French led a dynamic and daring Drama Club, giving students the space to challenge themselves and explore their artistic talents.

For the sporty and energetic, lunchtimes became a mini-carnival of activity. Mr Todorovski's Table Tennis, Mr Sirianni's Badminton, and Ms Warren's Outdoor Games kept students moving, laughing and competing in friendly matches. On Mondays, half the school seemed to migrate to Mr Lyras's legendary FUTSAL Club, while Mr Chen's Weights Club allowed students to test their limits and build strength.

Lunchtime Clubs

Those seeking calm found it in the peaceful haven of Yoga Nidra and Meditation, lovingly created by Ms Tsalkos. Meanwhile, the sharp thinkers and strategists honed their focus in Chess Club—Beginners, with Mr Butler and Masters, with Mr Campbell-Miller. Students also found support and community in the welcoming Safe Space with Ms Zahra, while the philosophically minded explored life's biggest questions with Mr Friend in Philosophy Club.

Creative hands were kept busy too. Mr Langer's Art Club encouraged students to experiment and express themselves visually, while Ms Veljanovski brought back the nostalgic charm of Model Kit Making—a favourite among craft enthusiasts, and the fastest-growing club of all. For those drawn to the old-meets-new, Mr Brewer's Retro Gamers Club celebrated gaming history in full pixelated glory. Environmentally conscious students dug right into Mr Irvin's Enviro, Recycling, and Gardening Club, where green thumbs and eco-minds flourished. And every week found its perfect ending with Rachael's and Matt's beloved Board Games Club—an RHS classic that remained as popular as ever.

Lunchtime Clubs

All year long, these clubs transformed lunchtimes into moments of community, creativity and joy. Whether students were playing, performing, thinking, crafting, or simply relaxing, Reservoir High School was always alive with activity. It was a year that truly showcased the spirit of our school—and the endless ways our students make it their own.

Music Department

A Year of Growth and Performance

2025 was a massive year for the Music Department at Reservoir High School! The year has been filled with energy, creativity and outstanding performances. Our students and staff worked tirelessly to bring music to life across a range of school and community events, showcasing both individual talent and the collaborative spirit that music brings out among the students.

This year's highlights included the annual Performing Arts Night spectacular, filled with music, dance and drama performances. This year we hosted our very first School Bands Extravaganza concert. The theme for the night was '80s Movie Hits', which filled the Performing Arts Centre with colour, nostalgia and some incredibly impressive musicianship, taking audience members on a nostalgic trip back to the 80s with some of the greatest movie hits of all time.

Instrumental Soirées

were a new addition to the music program throughout the year also provided students with valuable performance experience in a more intimate setting, allowing them to share their developing skills with peers and families.

We're also thrilled to note a strong increase in instrumental music enrolments, reflecting the growing enthusiasm and engagement in our school's music program. It's exciting to see more students discovering their passion for performance, creativity and collaboration through music.

Looking ahead to 2026, the Music Department is already planning a bigger and better year of performances. Regular lunchtime concerts and Instrumental Soirées will return, alongside major annual events such as Performing Arts Night and the School Bands Extravaganza.

We can't wait to see what our talented students achieve next year as they continue to make music a vibrant part of school life!

Music Department

The Day the Internet Died

The Day the Internet Died – A Week Without Wi-Fi (and With a Lot of Laughs)

This year's school production brought big laughs, sharp satire and just a little bit of uncomfortable truth to the stage. Set in the seemingly ordinary town of Bloomington, the play begins with a "catastrophe" that feels almost unthinkable: the internet goes down... for an entire week.

What follows is pure chaos. From failed attempts at online shopping to the horror of having to talk to people face-to-face, the play hilariously unpacked just how dependent we've become on our screens. Watching characters struggle to date, research, and even hold basic conversations without Google or social media was both entertaining and surprisingly relatable.

Our cast embraced the absurdity of the situation with energy and confidence, delivering comedic timing that had the audience laughing from start to finish. Whether it was awkward silences, wildly incorrect "facts," or over-the-top meltdowns, every scene highlighted the ridiculous side of modern life in a digital world.

Behind the scenes, the production was just as impressive. From creative staging to clever use of props and sound, the crew worked tirelessly to bring Bloomington's internet-less nightmare to life.

More than just a comedy "The Day the Internet Died" left us with something to think about. Would we really cope any better without the internet? Or are we all just a little too reliant on that glowing screen?

One thing's for sure—if the internet ever does go down for a week, at least we now know we can laugh about it.

Advance

Latrobe Retirement Village

The Year 9 Advance students continued to demonstrate compassion, curiosity and community spirit through their ongoing partnership with Latrobe Retirement Village. Across the year, students took part in a series of meaningful visits, building connections with residents and gaining valuable insights into their lives and experiences.

The program began in Term 2, with an initial visit, where students met residents and were given a tour of the village facilities. This introduction helped students better understand the environment and daily life within the community, setting the foundation for the interactions that followed. In Term 3, students returned to conduct interviews with residents. These conversations were a highlight of the program, as residents generously shared stories about their lives, personal achievements and memorable experiences. Students listened attentively and developed their communication skills, while forming genuine connections.

Using these interviews, students compiled thoughtful written reports that captured each resident's story. These were presented back to the residents during Term 3. The presentations were warmly received, giving residents a lasting keepsake and students a sense of pride in their work.

The visits continued in Term 3, with a lively trivia session. This activity brought laughter and friendly competition, further strengthening the bonds between students and residents.

The program concluded with an International Morning Tea, where students and residents came together to share food, culture and conversation in a celebratory atmosphere.

Overall, the Year 9 Advance visits to Latrobe Retirement Village was a rewarding experience for everyone involved. Students not only contributed to the community but also gained a deeper appreciation of the value of listening, storytelling and intergenerational connection.

Advance Camps Year 9

Eildon: Year 9 Advance Camp – Duke of Edinburgh Bronze Award Practice Journey

The Year 9 Advance students took part in their Duke of Edinburgh Bronze Award Practice Journey, an important step in preparing for their qualifying expedition later in the year. The camp was held over three days, with students based at Eildon Pondage Caravan Park, where they stayed in tents provided by the school.

Throughout the camp, students worked in small groups to develop independence and teamwork skills. Each group was responsible for planning, preparing and cooking their own meals using Trangias (methyated spirits camping stoves). This experience encouraged students to work collaboratively, manage their time effectively and develop practical outdoor skills.

A key focus of the camp was outdoor adventure and personal challenge. Students explored the beautiful surroundings of Lake Eildon National Park, participating in a series of hikes that helped build their navigation, endurance and teamwork skills, while enjoying the natural environment.

Students also took part in high ropes and initiative activities hosted at Kinglake Forest Adventures Camp. These activities challenged students to step outside their comfort zones, build confidence and strengthen their communication and problem-solving skills while working together to complete a range of physical and team-based challenges. The camp provided an excellent opportunity for students to develop resilience, independence and leadership, while working toward the requirements of their Duke of Edinburgh Bronze Award. It was a rewarding experience that helped prepare students for their upcoming qualifying journey and strengthened the bonds within the Advance cohort.

Advance Camps Year 9

Advance Camps Year 9

Torquay: Duke of Edinburgh Bronze Award – Qualifying Journey

The Advance students headed to the coast for their Duke of Edinburgh Bronze Award Qualifying Journey, spending three action-packed days based at the Torquay Foreshore Caravan Park with Mr Sirianni, Mr Gayfer and Ms Scott. Students camped in tents for two nights, working together to set up camp, cook meals and manage their equipment – all important skills required for completing the Duke of Edinburgh Award.

Day one focused on developing navigation and hiking skills. Students completed a challenging walk around the You Yangs Regional Park. Along the way, students practised teamwork, map reading and resilience, while enjoying some incredible Victorian landscapes.

Day two took the group along the Great Ocean Road to Live Wire Park in Lorne, where students participated in an exciting high ropes adventure. The activity tested students' confidence and problem-solving skills, as they tackled treetop challenges and zipline courses, high above the forest floor. Later in the day, the group took a walk to the Erskine River Rapids and then, jumping off the bus, for a Torquay Coastal Walk back to the caravan park to cook up a storm.

After Dinner, students were treated to another scenic walk around the lake, to get a good look at the Beaver Moon, which was the largest and brightest full moon of the year.

Throughout the camp, students demonstrated perseverance, teamwork and independence while meeting the requirements of their Duke of Edinburgh Bronze Award Qualifying Journey. The experience not only challenged students physically but also built confidence, leadership and a strong sense of achievement.

The camp was a fantastic opportunity for students to connect with nature, develop outdoor skills and support one another through new challenges. It was an unforgettable experience and a proud milestone in their Duke of Edinburgh journey.

Darebin Creek Planting

Our Advance students took part in a meaningful native tree planting session along the beautiful Darebin Creek, contributing to habitat regeneration in our local environment. The class walked down to Nangak Tamboree, where they were guided by Talia, Peter and Danny from Darebin City Council. During the session, students learned about the importance of restoring natural habitats and improving biodiversity along the creek corridor. They rolled up their sleeves and actively participated in planting native species, helping to strengthen the local ecosystem and create healthier habitats for wildlife.

It was a fantastic hands-on learning experience that allowed students to connect with nature, give back to the community and make a real difference in protecting our local environment.

Debating

What a standout year for Reservoir High School debating, with students demonstrating exceptional skill, resilience and commitment, across a range of competitions and challenging topics.

The year was highlighted by strong performances in the DAV competition held at Loyola College. The C Grade team—Clara, Mehaknoor and April—delivered an impressive effort debating the topic “Tourism should be Australia’s main export.” After only a week of preparation and multiple lunchtime coaching sessions, they competed fiercely on the affirmative side and narrowly lost to Catholic Ladies’ College by just one point. Their teamwork, dedication and rapid skill development throughout the preparation period were outstanding.

The A Grade team—Jake Proctor, Jake Chen and Vivien Tang—faced a secret topic on whether AI should be licensed. With only one hour to prepare, and speaking on the negative side, they delivered a compelling and strategic argument, ultimately defeating Mill Park College by two points. Both Vivien Tang and Jake Proctor were awarded Best Speaker, recognising their clarity, confidence and persuasive delivery. The team argued strongly for regulation over restriction, effectively rebutting opposition claims by highlighting that many concerns attributed to AI are also present across broader digital platforms.

The momentum continued into the Lions Club Debating Competition, where Vivien Tang, Jake Proctor and Aiden Turker stepped up under pressure. Aiden demonstrated outstanding commitment by joining the team at short notice after Jake Chen lost his voice. The team debated the topic of businesses being given the option to go cashless, securing a well-earned victory against Northcote High School and progressing through to the grand final. Jake Proctor was again recognised with a Best Speaker award for his persuasive contribution.

In another strong performance, Vivien Tang, Jake Proctor, and Aiden Turker debated the topic “Should pesticides and herbicides be banned?” against Santa Maria College, delivering a confident and well-structured case on the negative side and achieving another convincing win.

Throughout the year, students showed remarkable dedication, often balancing demanding academic schedules while committing time to prepare and compete. Their professionalism, teamwork and willingness to step up when needed were a credit to themselves and the school.

A special thank you goes to Elly Gomez and Libby Warren for their ongoing support, coaching and commitment to developing the debating teams throughout the year. Their guidance played a key role in the students’ success and growth.

Congratulations to all students involved in an excellent year of debating, marked by achievement, resilience and school pride.

Halloween

🎃 Halloween Week at Reservoir High School – A Spooktacular Success! 👻

Halloween Week at Reservoir High School was full of fun, fright, and just the right amount of chaos! The library was absolutely buzzing during our Horror Movie & Characters Trivia Competition, where teams battled it out over everything from classic jump scares to modern scream-queens. The competition was fierce, the energy was high, and the horror-movie knowledge was seriously impressive. A huge thank you to all the teams who packed out the library and made it such a fantastic event!

We also attempted our first-ever Pumpkin Carving Competition... and while the enthusiasm was strong, the entries were, well... limited. As in: one pumpkin. And yes, it was mine. And no, I sadly cannot award myself the prize (though it was an excellent pumpkin). We'll chalk that one up as a warm-up year and try again next Halloween—so start sharpening those carving tools early!

The Costume Parade, however, was a massive hit! Students and staff turned up in some truly incredible costumes—funny, spooky, clever, and everything in between. The creativity on display made it nearly impossible to pick winners, but we somehow managed to hand out a stack of prizes to our most outstanding ghouls and goblins.

Thank you to everyone who joined in, dressed up, or cheered from the sidelines. Halloween Week was a blast because of you—and we already can't wait for next year!

🎃 See you in 2026 for even bigger chills, thrills, and (hopefully) more than one pumpkin! 🍬 Ms. Scott Spooky Librarian.

Avalon Airshow

Avalon Australian International Airshow Careers Day – A Sky-High Experience!

This year, one of the most memorable excursions for our senior students was the Avalon Australian International Airshow Careers Day –and what a spectacular day it was! On Friday, 28th March, our Year 11 and Year 12 Physics, Systems Engineering and Model Kit Club students had the incredible opportunity to immerse themselves in the world of aviation, aerospace and defence.

From the moment we arrived, the airshow delivered a full day of excitement. Students experienced interactive exhibits, explored cutting-edge technology and walked among an impressive range of static aircraft displays. The flying demonstrations were a clear highlight–roaring engines, breathtaking manoeuvres and the thrill of seeing world-class pilots in action captivated everyone.

Inside the exhibition halls, students engaged directly with industry experts, learning about real-world pathways and future opportunities. From global aerospace companies, to defence organisations and research groups, the Careers Day offered a rare chance to ask questions, build connections and discover the many directions a passion for science and engineering can lead.

The event's hands-on activities and inspiring guest speakers gave our students a firsthand look into the rapidly evolving future of these industries. Many walked away with newfound motivation, ideas for future study, and even fresh career aspirations they hadn't considered before.

Overall, the Avalon Airshow Careers Day was more than just an excursion—it was an unforgettable experience that broadened horizons, sparked ambition, and reminded our students just how far their curiosity can take them. A truly uplifting day for everyone involved!

Athletics

Northern Metropolitan Region

VCE Outdoor & Environmental Studies Camp at Wilsons Prom

Our VCE Outdoor and Environmental Studies students travelled to the stunning Wilsons Promontory for their annual camp. Over several days, they explored coastal landscapes, pristine forests and diverse wildlife, immersing themselves in one of Victoria's most iconic natural environments.

The camp offered hands-on opportunities to investigate environmental relationships, land management and human impacts on natural spaces. Hikes to spectacular lookouts, coastal activities and close encounters with native species brought key study concepts to life.

We were lucky to experience surfing on a warm sunny day with light offshore winds. Many a perfect wave was ridden by students as well as Mr Gayfer and Mr Devine.

Students were also reminded just how inquisitive wombats can be, with several tents raided in search of food!

The experience not only deepened students' understanding of the environment but also strengthened teamwork, resilience and practical outdoor skills. Wilsons Prom once again proved to be the perfect outdoor classroom for our VCE OES cohort.

Outdoor Environmental Studies Camp : Indi's Report

The Outdoor and Environmental studies camp to Wilsons Promontory was an unforgettable experience, filled with adventure, relaxation and personal growth. We started the camp with surfing, which was both challenging and exciting. It felt amazing learning a new skill and encouraging each other to ride the waves. The highlight of surfing was being able to stand up fully and ride in all the way to shore.

The next day, we headed on a hike up Mt Oberon. We were able to connect with the flora and fauna and take in the natural beauty as we made the hike up the mountain. The view from the top was fabulous, and my highlight from the camp. It was a beautiful and peaceful view of ocean, Squeaky Beach and the nature that surrounds Wilsons Prom. It was a physical challenge, but the view made it worthwhile.

Setting up the tents and cooking on the tranguias to prepare our meals was a great way to work together as a team. Chilling around camp provided a nice break from the physical activities of the day. It was great to relax, bond with friends, play games and tell funny stories. The beach and river walks were incredibly refreshing and the night sky was filled with many stars, which added to the calming vibe of the camp.

Overall, the OES camp to Wilsons Promontory was a perfect combination of adventure and relaxation. It was a nice reminder that it is fun to get out of your comfort zone and enjoy the world around you. By Indi Quinn

Outdoor Environmental Studies

Camp : Rosie's Report

OES Wilsons Prom reflection

We had the opportunity to go to Wilsons Prom for the Year 12 OES class, which allowed us to build on friendships and connect with nature. As we arrived at Tidal River, we headed straight over to the beach to start our surf lessons. It was a very mixed group, with some having plenty of previous experience in standing up straight away and others, their first time, taking a few goes, but eventually standing up towards the end.

We went for a nice walk along the beach, throwing a frisbee and kicking a footy along the way. We were able to build strong connections through shared experiences. We cooked up dinner on Trangias which was another first for many. We then embarked on a beautiful night walk, identifying constellations in the bright night sky and even spotting a wombat on the way back. As we returned, we discovered that wombats had eaten through a tent and food container, reminding everyone of the importance of storing food in the metal trailer.

We had a pleasant hike up to the top of Mt Oberon, enjoying panoramic views of the whole peninsula. After climbing back down and enjoying lunch we headed over to the river to cool down and play more games. We had another fantastic hike to Squeaky Beach, where the sand is in fact squeaky! Packing up and leaving early on Thursday, we used the bus ride to reflect on all the memories made and skills learned.

All the activities were highly enjoyable. On behalf of the group I'd like to extend my appreciation to everyone, especially Mrs Chatley who made the camp possible.

By Rosie Norton

Rock Climbing

Outdoor Education – Rock Climbing Excursion

As part of our Outdoor Education unit, students took part in an exciting rock climbing excursion in the city. The day began with students travelling together on public transport, building independence and navigating the journey into Melbourne's CBD.

Once in the city, students enjoyed time for lunch before heading to the climbing venue, where they challenged themselves on a range of climbing walls suited to different skill levels. The experience encouraged teamwork resilience and personal challenge as students pushed themselves outside their comfort zones.

It was a fun and active day that combined practical outdoor learning with real-world skills, leaving students with a strong sense of achievement and plenty of memorable moments.

Colour Run

What a colourful way to celebrate our school community! The annual Colour Run was once again one of the highlights of the year, bringing together students and staff for a day filled with fun, laughter and plenty of colour.

Dressed in white and ready for action, participants set off on an untimed, non-competitive course designed for everyone to enjoy. Along the way, runners passed through colour stations where volunteers showered them with vibrant, food-grade corn starch powder. With every station, the colours became brighter, the smiles became bigger and the excitement continued to grow.

The Colour Run was more than just a fun event—it was a celebration of diversity, inclusion and school spirit. Students of all year levels joined in, encouraging one another and embracing the chance to have fun together. By the time everyone crossed the finish line, white shirts had transformed into colourful masterpieces and the school oval looked like a rainbow had exploded!

Filled with laughter, teamwork and unforgettable memories, the Colour Run was a fantastic reminder of what makes our school community so special. It was truly a day to remember and one that will leave a lasting splash of colour in our 2025 Yearbook.

Art and Technology Show

Our school came alive with colour, innovation and creativity at the annual Art and Technology Show. Students from every year level proudly showcased an impressive range of work—from expressive paintings and finely crafted ceramics, to inventive Visual Communication designs, Digital Art, Product Design and Engineering projects. The exhibition highlighted the imagination, skill and dedication of our students across a wide range of creative and technological disciplines.

One of the highlights of the evening was the much-anticipated Bottle Rocket Competition, where students launched their handmade rockets across the oval outside B-Block, to the cheers of an enthusiastic crowd. Adding to the vibrant atmosphere, several student bands performed throughout the afternoon, providing a lively soundtrack that ideally matched the energy of the event.

Guests were also treated to a delicious selection of food prepared by our Food Technology team. Their creativity in the kitchen was a wonderful addition to the afternoon and perfectly complemented the artistic and technological flair on display.

The event celebrated not only the incredible artistic talent within our school but also the growing connection between creativity, design and technology. It was inspiring to see so many students sharing their ideas, experimenting with new skills and presenting their work with pride.

A sincere thank you goes to our dedicated Art and Technology staff for guiding, supporting and encouraging our students, and to the families and community members who attended to celebrate their achievements. The afternoon was a fantastic reminder of how strongly creativity continues to thrive within our school community.

Prize Winners

Senior Arts – Bixie Woolford

Middle Years Arts – Lachlan Wu

Junior Arts – Lorraine Dayuja

Senior Technology (Product Design / Computing) – Ben Mitchell

Senior Visual Communication – Daniel Kirac

Senior Music – Rick Nevrous

Food Award – Isobel Laffan

Bottle Rocket Competition

First Prize – Gurinder Gahlay & April Proctor

Second Prize – Leonard Freitag

Third Prize – Suhaib Sabbir & Pip Batterham

People's Choice Award – Haley Ha

Thank you to everyone who attended and helped make the event such a memorable success.

Miss C's Humanities Class:

Letters from the Front

Dearest Mother,

I can hardly bring myself to write about this terrible war that has been going on. There is bombing, shooting, gas masks and rats that would eat your body if you were dead. Trench foot, lice lay eggs in our soldier's clothes and we can't wash our bodies for weeks. Machine guns, flies. Soldiers were not able to eat food for days and the same with water. We are famished.

The trench is intolerable. We walk through muddy water which gives us trench foot. The trench is two metres deep and two metres wide. We dug it out in the rain. People are dying of trench foot because they have a very very bad fever.

I am very lucky that I have survived for so long. The sight is horrific. We met the enemy on No- Man's Land. The battle was so bad that people would reek of blood, limbs torn to pieces and people terrified on both sides. The Germans were barbarous, and it was a grisly sight. Dead bodies everywhere. The reek of blood and decaying squalid corpses! Bayonets lying around everywhere, I picked it up and ran through the barbed wire. So many innocent lives lost during the war where people only want to be happy have happy lives, with their families. Without shooting, bombing, trench foot, lice, gas masks, smell, No-Man's Land, barbed wire and digging graves.

I have some sad news, Mother. Pop William's son has been killed on the Western Front. They Buried him in Ypres, in Belgium. Many of our brothers have fought for this country and their loved ones and the people that they care for. He was a good person. We can say he was a proud Yorta Yorta man who cared for his land and for the people that he has cared for and loved like his family. On this sad note I will send all my love until we will meet again on Country.

Your loving son,

Pte. Cooper

By Jordy.

Dearest Mother,

I am so lucky I have survived for so long. Many innocent lives have been lost due to Trench foot and so much more. There have been rats running around everywhere which is quite awful and disgusting, but I got used to them being around. Many soldiers are getting diseases. I might have been bitten by a rat and flies once or twice but it's nothing for you to stress about. There has been so much mud around from all the rain that has been falling.

I will never forget these terrible conditions. Many people have been dying in front of me. Some of the soldiers turned on each other and some soldiers have been making friends. We've been sticking together since day one. At night it's terrifying, thinking about home keeps me hopeful. Lately hunger caught up with people. There's been food and water shortages, making people starve to death. We are sick of these filthy uniforms we must wear it's torture.

No Man's Land was horrendous. The things I had to experience watching was barbarous. Some soldiers would risk it and dared to step foot in No Man's Land, causing many deaths, piles of bodies would just be lying there. It was a gruesome sight. A lot of rifles and machine guns have been fired and bayonets lie everywhere. Don't worry about me Mother I'm safe and sound now. I have good mates here. If I survive this I'll survive anything and come back home.

Your loving son, Jack

By Anastasia

Miss C's Humanities Class: Letters from the Front

To my dearest Mother,

It is my deepest sadness to be writing this but I don't think we are going to win this. The bombing has been going on for days and we have lost many men. Some to rifles and a few to trench foot. I feels like this has been going on for years but it's probably only been a few months. The trenches are caving in because of the wet climate. Everything is a blur. I keep seeing rats everywhere. I keep getting bitten by bugs and flies.

I just want to say a few words in the best from I can : poetry

I wish to forget, but my mind is twisted

because of the things I've seen....

bloody bleeding, bodies piling,

gun shots firing, a dead man's tree.

Men screaming, gruesome decaying. An awful disease.

Horrific and full of reek, people risking, going crazy

running in where they shouldn't be - The Dead Man's Land

A bleeding mess. Loyal men dying, boredom spreading.

So many innocent lives lost ... I'm so lucky to have survived. The trench is intolerable,

I hope this finds you and hope you can live on... don't let it affect you if I don't make it

back, so fair well! Have a lovely life

Your Loyal, loving son

Noah.

By Neesha.

Trapped Vines

**Black vines with raven eyes
Blocked souls with aching bones
Bad tones with sharper stone
Bold eyes with quite the sight
Gray groans with broken songs
Emotional tunes by the Bruised
Physical fights with no rights
Social sorry in no hurry
Frightening cries in the night**

Neesha Young

Who I am in this fight

I'm the silence in the room
The bird without any wings
I'm the lion that mourns
The whirlpool that won't stop spinning
I'm the moon without the sun
The withered flower in a garden of fun
An underwater forest submerged by grief
Unlike a clock
I don't hear myself think
The last thing I hear is tik toc tik toc
Once again, I have a choice
Mum or dad?
What's the point
Once again, the fighting starts
I'm curled in my room
Afraid of the dark
Names are heard through the walls
Something I don't wanna be apart of
I wish to forget but my mind is twisted
Because of things I've heard even though it's none of my business
I'm a soul that doesn't speak
I'm a person that freaks
At the word I will not speak
I'm trapped in the walls
A never ending loop
A void I'm trying to escape
The call I'll never answer at all
The question that will never be heard
This call I seek
The freedom I seek
Is far beneath me
The things I feel
Make me wanna shriek
I've fallen in too deep
Unable to breathe
Drowning in a sea
Someone please save me...
As much as I care
I'm in despair
I'm not sure where I stand
Hurting those who don't understand
I'm ready to give up again and again
This is the end of the night so all I'm gonna say is have a nice day, Goodbye

Neesha Young

Year 12 Formal

A Night to Remember: Year 12 Formal

The Year 12 Formal was a spectacular evening, filled with celebration, laughter and unforgettable memories, as students and staff came together to mark this special milestone.

Held at the elegant and sophisticated venue, The Lincoln of Toorak, the evening provided the perfect setting for our Year 12 students to celebrate their final year of secondary school in style. The beautifully presented venue created a wonderful atmosphere from the moment guests arrived.

A dedicated group of 20 staff members attended the event, joining students in celebrating their achievements and sharing in the excitement of this important occasion. Their presence helped make the evening even more special and highlighted the strong connections that have been built throughout the students' time at school.

Guests enjoyed a delicious selection of food throughout the evening, while the dance floor remained busy thanks to an outstanding DJ, who kept the music flowing all night. Students embraced the opportunity to dance, celebrate with friends and create lasting memories together.

One of the highlights of the evening was the popular photobooth, which provided plenty of fun and laughter, as students and staff captured snapshots of the night. The disco lighting added to the festive atmosphere, ensuring there was energy and excitement from beginning to end.

The Year 12 Formal was a fitting celebration of the Class of 2025 and an opportunity for students to reflect on their journey, while looking forward to the future. It was truly a night to remember, filled with friendship, joy and the creation of memories that will last a lifetime.

Awards Night

Reservoir High School community gathered at The Centre in Ivanhoe for the much-anticipated Annual Awards Evening. The event brought together students, families and staff to celebrate a year of hard work, achievement and success.

The evening commenced with a special Year 12 Valedictory celebration, providing an opportunity to acknowledge and farewell our graduating students as they prepared to embark on the next chapter of their lives. It was a meaningful occasion, filled with reflection, gratitude and pride, as we recognised the contributions of the Class of 2025 to our school community.

Following the Valedictory celebration, the Awards Ceremony highlighted the outstanding accomplishments of students across all year levels. Academic excellence, leadership, citizenship, sporting achievements, artistic talents and dedication to learning were recognised and celebrated throughout the evening.

The ceremony showcased the breadth of talent within our school and reflected the commitment, perseverance and determination demonstrated by our students throughout the year. Each award recipient should be incredibly proud of their achievements, which serve as an inspiration to others within our school community.

The Annual Awards Evening was a spectacular celebration of student success and a reminder of the many ways our students continue to excel, contribute and flourish. Congratulations to all award recipients and to every student whose efforts helped make 2025 another successful year at Reservoir High School.
