Dear Parent/Guardian,

Edunet are excited to be the preferred partner for the BYOD Portal at **Reservoir High School**. Please find enclosed all information regarding the purchase of your son or daughter's device.

Order online at

reservoirhs.technologyportal.com.au

Please type this into your web address bar rather than searching for it in Google, or scan the QR code.

If you'd like to better understand the service Edunet provides, please watch our video by typing this link into your web address bar: **ednt.link/BYODVideo**

Plan Ahead

Edunet is authorised by device manufacturers to supply education devices at discount prices. We do forecast and bring in many devices, but do recommend placing your order as early as possible to avoid delays and to secure a device while we have stock.

If a device is out of stock please refer to the ETA stated on the portal. ETAs are estimated and subject to change due to delays from manufacturing.

Delivery	Order cut-off date
Pre-Christmas delivery (mid/late December)	**27 November 2026**
Schools in the NT	**20 November 2026**
Day 1, Term 1 delivery (mid/late January)	**5 January 2027**

*** Cut-off dates are only for devices listed on the portal as in stock. If a device is out of stock we can't promise a Christmas or Day 1, Term 1 delivery.**

If you place your order after the cut-off dates we will do everything we can to deliver as soon as possible. Please be aware that if your school has a requested delivery date, your device won't be delivered until that specified date. The portal will inform you next to each device if there's a preferred delivery date set by the school.

If you have any questions about the device or the ordering process, please contact us on **1300 338 638** or email **portal@edunet.com.au**.

Kindest Regards,

Matthew Gordon
Managing Director

Why Edunet?

View our informational video by typing this link into your web address bar: **ednt.link/BYODVideo**

Education Specialists

Edunet is proud to be an Authorised DET Supplier for Government Schools and also a trusted advisor for many Catholic/Private & Independent K-12 schools. With over 21 years' experience in both IT and Education, our strength is in our quality of service and our mission is to maintain long term relationships that benefit both school and community.

Education Devices & Prices

Edunet are Authorised Education Suppliers for key device manufacturers. Because of this, we are able to provide the lowest Education pricing on a range of laptops that aren't available in the retail stores!

Access to School IT Support

By purchasing through the school's Edunet portal, it provides your school's IT team the visibility to assist with any warranty/insurance faults. If the device can't be fixed by the school tech, they will reach out to Edunet and we'll come onsite to the school and repair the device.

Speak to your school for clarification, but if you bring a device from a retail store or from home the school will only be able to provide limited support. This is because the warranty and insurance support is managed by the retailer you purchased the device from.

Onsite Warranty Support

As an Authorised Warranty Service provider, Edunet are able to provide onsite repairs under the genuine manufacturer's warranty with genuine manufacturer's parts.

By purchasing the Onsite Warranty through Edunet, you will be able to call on us to repair your student's device at the school, or at your home if it's during school holidays!

If you purchase a device through a retail store, it likely means repairs are done at their repair depot, which means you'll need to hand the device over to them for an unknown amount of time.

12 Months Interest Free

Through Zip you will be given the option to pay off the purchase with 12 months' interest free financing. Further information on Zip is provided later in this information pack.

Acer TravelMate B3 Spin 12 (N250/8GB/256GB)

Device price
$875.00 inc GST

Specifications

- **12.2" WUXGA touchscreen (1920 × 1200)** – sharp, responsive display with 360° hinge for laptop, tablet, or tent use

Edunet BYOD
School Tech Made Simple
Secure your student's 2027 device

What is Managed BYOD?

Managed BYOD (Bring Your Own Device) is a school-led program where families purchase from a school-approved list of education-specific devices. These devices are pre-configured, supported, and aligned with your school's IT and curriculum needs.

Why Edunet?

Edunet have been providing education grade devices to schools and parents for over 20 years.

We are proud to be working with your school and for having the opportunity to make this process as simple and efficient as possible for you!

Need a Laptop Repair? We're Here to Help
Even During the Holidays

Warranty covers any faults caused by the manufacturer, things that aren't your child's fault. This includes issues like hardware failures or parts not working properly.

Insurance (also called Accidental Damage Protection or ADP) covers damage caused by accidents, like drops, knocks, or liquid spills.

Optional Onsite Repairs and Accidental Damage Protection (ADP) allow students to drop broken devices directly at their school's IT desk for swift repairs, eliminating the need to visit retail stores or arrange private shipping.

Payment Options

- Edunet provides two options for upfront payment through the portal. Firstly, parents can choose to pay by VISA or Mastercard.
- The second option is to pay the full amount to us via BPay. There is no charge for doing this.
- Interest-free and payment solutions via Zip

The Edunet Advantage for Parents

School-Approved Specifications:
Every device listed on the portal is pre-approved by your school's IT department to guarantee compatibility with software, network security, and curriculum demands.

Exclusive Education Pricing:
Take advantage of discounted education-only pricing, bundled accessories and flexible payment options (including Zip and BPay).

Built for Everyday School Life:
We select commercial-grade hardware featuring reinforced hinges, spill-resistant keyboards and drop-resistant casing designed to withstand daily backpack travel.

Comprehensive Education Warranty:
Protect your investment with dedicated extended warranty options, fast-turnaround repairs and accidental damage coverage for total peace of mind.

How do I order?

Simply scan the QR code below directly to your school's dedicated BYOD portal which is loaded with devices the school has handpicked and that are suitable for their school environment.

For pre-Christmas delivery, please place your order before 27 November 2026.

Place your order before 5 January 2027 to ensure delivery of your student's device prior to day 1, Term 1 2027.

Helpful Advice

Can I pass this device on to a younger sibling?

Absolutely. Any warranty or insurance you've purchased stays with the device, no matter who's using it.

Backing up your data

If your device ever needs repairs under warranty or insurance, it may need to be wiped during the process. To avoid losing important files, it's a good idea to regularly back up your data.
Most schools provide students with access to free cloud storage, so saving to the cloud is simple and usually free.

Installing software

Your school will supply all the software needed for learning. If you'd like to install anything else—like a home printer or extra apps—it's best to check with the school first. Some schools manage admin rights on student devices to keep things secure, so they may need to help with installations.

Changing schools

If you're moving to a new school and want to remove the old school's software, speak with your new school first. They'll usually wipe the device and install their own setup. Edunet can help with resetting the device, but we can't install new school software like Microsoft Office or Adobe.

Finished school and want to use the device at home?

No problem. We can restore the device to its factory settings so it's like new again. You'll then be free to install any apps you like and use it as a personal device.

SCAN TO ORDER HERE

Scan to order now using your school's custom portal.

No downloads, no hassle - just quick and easy access to secure your device today.

Payment Options

Upfront Payment

Edunet provides two options for upfront payment through the portal.

- The first option is to pay by any VISA or Mastercard.
- The second option is to pay the full amount to us via BPay. There is no charge for doing this.

Payment Plan

No Credit Cards | **No Backdated Interest** | **12 Months Interest Free**

What are the costs?

- Once off account establishment fee of $25 if you don't already have a Zip account.
- $9.95 monthly account fee (only while there is a balance left).
- Standard credit card interest ONLY on the residual amount after 12 months.
- Repay from $10/week or 3% of the outstanding balance (whichever is greater).

You won't be charged extra for paying the loan off before the 12-month period, and more importantly parents incur no additional charge for selecting Zip instead of paying by credit card or BPay.
